--The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

THE REPLY FILED 22 October 2004 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114.

**PERIOD FOR REPLY** [check either a) or b)]

- a) ☒ The period for reply expires 3 months from the mailing date of the final rejection.
- b) ☐ The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP 706.07(f).

Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

1. ☐ A Notice of Appeal was filed on \_\_\_\_\_. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal.
2. ☒ The proposed amendment(s) will not be entered because:
- (a) ☒ they raise new issues that would require further consideration and/or search (see NOTE below);
  - (b) ☐ they raise the issue of new matter (see Note below);
  - (c) ☐ they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or
  - (d) ☐ they present additional claims without canceling a corresponding number of finally rejected claims.

NOTE: See attached.

3. ☐ Applicant's reply has overcome the following rejection(s): \_\_\_\_\_.
4. ☐ Newly proposed or amended claim(s) \_\_\_\_\_ would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s).
5. ☐ The a) ☐ affidavit, b) ☐ exhibit, or c) ☐ request for reconsideration has been considered but does NOT place the application in condition for allowance because: \_\_\_\_\_.
6. ☐ The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection.
7. ☒ For purposes of Appeal, the proposed amendment(s) a) ☒ will not be entered or b) ☐ will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended.

The status of the claim(s) is (or will be) as follows:

Claim(s) allowed: 10 and 11.

Claim(s) objected to: 69-72.

Claim(s) rejected: 26-34, 43, 44, 63-68 and 73.

Claim(s) withdrawn from consideration: \_\_\_\_\_.

*Advisory Action*

Claims 10-11, 26-34,43,44,63-73 are now currently pending in this application.

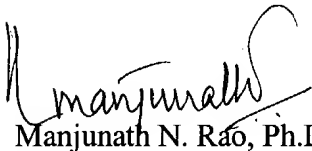

Applicant's request for reconsideration filed on 10-22-04 has been considered but NOT ENTERED, as it raises new issues and requires the Examiner to institute new rejections. The amendment has not been entered for the following reasons;

In response to the previous Office action, Examiner appreciates the efforts by the applicant to overcome all previous rejections by amendments and claim cancellation. However, said amendment has not been entered since new limitations in claims 69-72 raises new issues, i.e., enablement and written description, which would require the Examiner to make new rejections. Applicants have included partial information in each of the claim 70-72, with respect to the catalytic domain. Except for claim 69, claims 70-72 continue to describe the catalytic domain as that of a "glycoside hydrolase family" having a "length of about 370-380 amino acids". Such language reads on the catalytic domain of any or all mannanase A including mutants, variants and recombinants for which there is no guidance as to how one skilled in the art can make (enablement issue) said polypeptide. On similar lines, such language fails to satisfy the written description requirements regarding the structure of the catalytic domain. Simply defining the catalytic domain as "having a length of about 370-380 amino acids" cannot be considered as structural information. Therefore Examiner suggests applicants to amend claims 70-72 appropriately or make claims 70-72 dependent on claim 69 which defines the catalytic domain as having a sequence of SEQ ID NO:3.

Since the amendment filed has not been entered, all previous rejections made in the Office action mailed on 7-22-04 are maintained for reasons of record.
